PRODUCT & UX DESIGNER

Niranjan S.

I design complex digital experiences that feel simple, human and beautiful — from enterprise banking to critical-infrastructure interfaces and game systems.

PROFILE

Product & UX Designer (B.Des, Human-Computer Interaction, IIITDM Jabalpur), ex-IBM and IIT Kanpur's C3iHub. I work end to end — research, interaction design, wireframes and prototypes — on enterprise banking, critical-infrastructure and game systems, with a focus on clarity, accessibility and the small details that make a product feel effortless.

3+ Years of experience

10+ Teams & clients

13 Certifications

EXPERIENCE

IBM · Mumbai

Nov 2025 – Sep 2026

User Experience Designer · Full-time

- Designed wireframes, mock-ups and interactive prototypes illustrating concepts, interactions and user flows for India's largest public sector bank.
- Iterated and refined designs based on stakeholder feedback and business needs.
- Designed a mobile banking redesign proof of concept that makes a high-security banking app feel welcoming to every user.

C3iHub, IIT Kanpur · Kanpur

Jan 2024 – Jan 2025

Associate UI/UX Designer & Researcher · Full-time

- Designed Human-Machine Interfaces (HMI) for critical-infrastructure cybersecurity at the HFSS Studio under Prof. Vivek Kant.
- Handled UX, UI and user research for a CISO Dashboard for an international insurance firm, turning scattered security alerts into one view a CISO can act on.
- Applied ecological interface design methods — abstraction-decomposition hierarchies, affinity mapping and information architecture — to structure complex security data.

Cfx.re (Rockstar Games) · Remote

Mar 2022 – Nov 2023

Game Experience Designer · Part-time

- Led UX for the weapon and inventory systems of India's top FiveM role-play server.
- Tuned game mechanics to create a balanced, enjoyable player experience.
